

FORNI

EFFEUNO STACKING KIT

MAIN FEATURES

Certified and Safe Stacking

Prevents direct placement of one oven on top of another: the kit ensures stability and safety, reducing the risk of overheating and protecting electronic and mechanical components.

Vertical Space Optimization

Perfect for restaurants, bars and compact kitchens: double your baking capacity without increasing your countertop footprint.

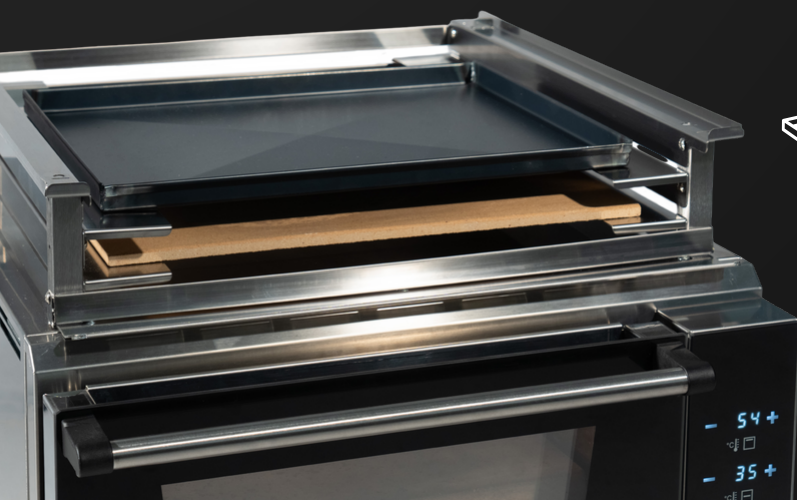

Guaranteed Compatibility

Specifically designed for the Easy Pizza PRO and Easy Pizza Evolution models. Perfect fit in terms of design and dimensions.

MAIN FEATURES

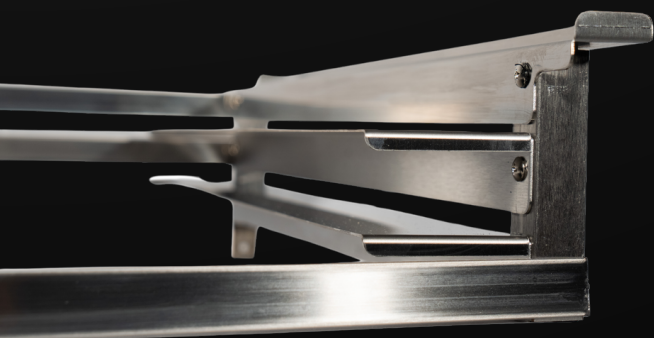

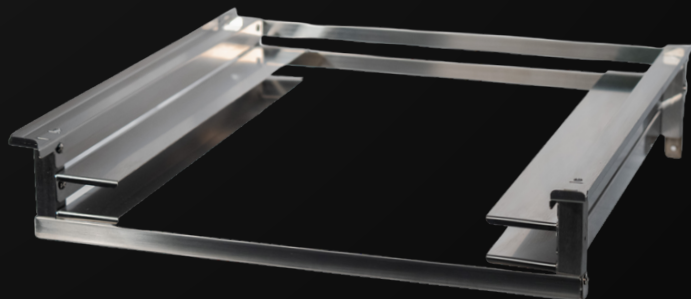

Extra Space for Accessories

The space between the ovens is ideal for storing two 30x40 cm pizza trays, useful for preparation or service in fast-paced environments.

Optimized Cooling System

The gap between the ovens allows proper heat dissipation, even when the lower oven door is opened frequently.

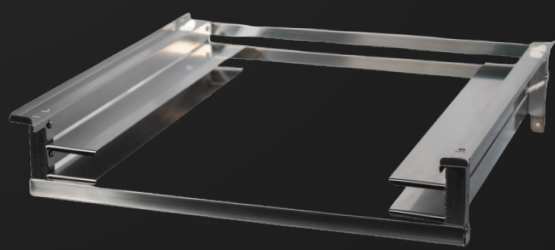

Easy to Install

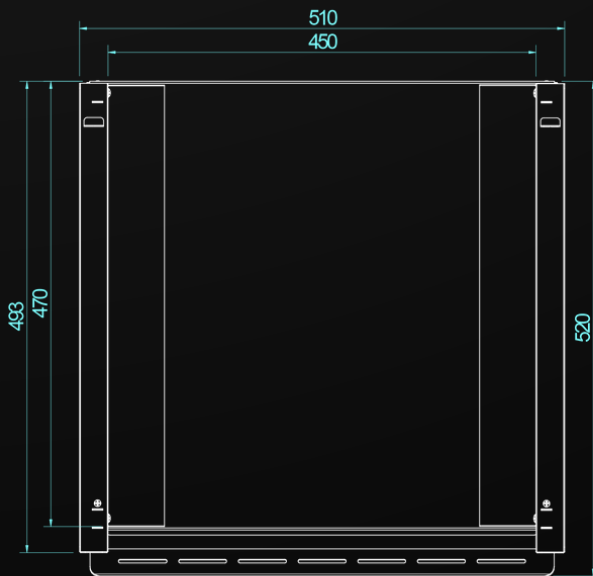

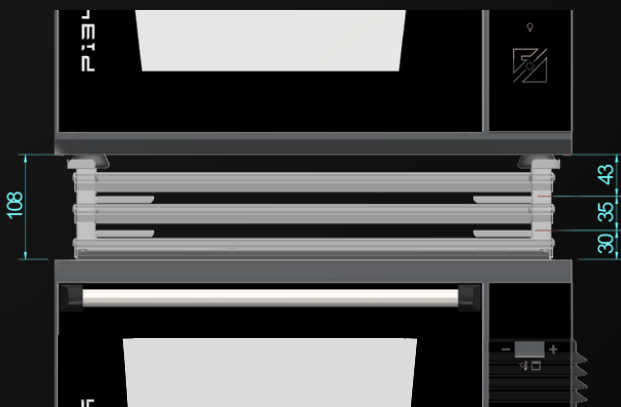

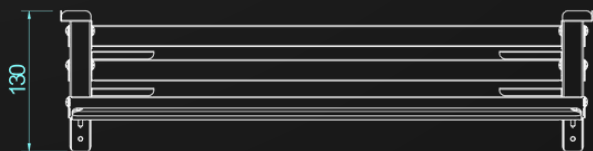

Made of stainless steel, it safely supports the weight of the upper oven.

Simple and quick assembly, ready to use in just a few minutes.
